Gst No.24DDJPM9402H1ZH

Sub: You're Requirement of paper core plant.

Dear Sir,

This is in reference of the telecommunication held with you regarding the subject.

Please find attached company profile and technical specifications enclosed for your perusal.

We trust you will find our rates and terms most competitive. We are looking forward foryour valued order.

Prompt reply is anticipating from your side.

Thanks

With best regards,

For Lottey Engineering Works

Mr.-Parvinder Singh (Director)

QUOTATION FOR PAPER CORE PLANT 32 LAYERS

1.Spiral Paper Winding Machine:- Complete with 10HP. AC2 Motor with drive best facilities for quick Belt. Tensioning .easy Mantel change system with your requirement and angel setting for rolling paper tubes. Heavy Duty Channel Frame 4"x2"Channel and Heavy Gauge covering side window open close system. Heavy Duty reduction Gear box 6" for taking Heavy Load of Winder Machine Main 20 HP ACmotor with Drive. One speed control box on Main Drive start system with fluctuation at a Machine Speed.

Working Size:- Minimum Inner Bore 25mms
Maximum Inner Bore ……. 600mm
Minimum Thickness ……. 1mm
Maximum Thickness ……. 20mm

2.3 Piece Reel stand:-Heavy Duty for Loading then Paper Reels in layer six as Per requirement of Tube Wall thickness & quality of Paper Tube Reel Standing by32 roll. Total Reel stand casting with heavy duty free roller MS mettles.

3.3 Piece GumSpraying System:- Paper glue Stand Systemwith a best fabrication atHeavy Gauge Sheet Glue Tank& Tope quality complete with 32 knives for give Adjustment with best quality Hardness Her Chrome and 32layers spraying glue System

4.On Line Rough Cutter:- Semi Automatic high Speed Cutoff unit to cut theThing Walled corner working operated b a combined pneumatic system & Electric Power and fitted with a facility of length setting of paper tuber cutting as per your Requirement in rough size, on line rough cutting with 3 H.P.A.C. Motor and best Quality cutter of H.S.S. of Best Pneumatic Slander& Fitting with moisture free airSupply by filter.

Working Size:-Minimum Wall thickness1mm
Maximum Wall thickness20mm

5.One Parchment Machine:-Parchment Paper Stand for Pasting the finishing Paperon outside of Paper tubes Best & Heavy Duty frame with revolving system, easy toperator, paper spry is synchronized with winder speed

6.Fine Cutting Machine:- working Capacity one meter cutting machine for cutting thetube in fine size as per your requirement. Complete Heavy Frame covering with airfresh system. Fully locking system 2 HP push Button 4 piece. Blade Holder withround Blade H.S.S. size 25 x 1.5 x 100 mm working size 4 Meter & Best pneumatic cylinder with fitting.

7.Glue Mixture machine:-MS sheet & heavy duty channel 2 HP AC Motor.

8.Slitting Cum Rewinding Machine:-

A)Fully C.I. Casting body.
B) Working Capacity 40” only.
C) Two Shaft Rewinding System Duplex Type .
D) Unwinding side leather Grip brake system.
E)Roll to Roll Rewinding System.
F) Round Blade 4” Die Male/Female 10 piece.
G) Total Roll and Gear Mounting on K.G.&Tatabearig only.
H)Maine motor 10 HPA\c motorwith drive

The Total Amount of Machinery:- (Ex Works)

- **(In INR) Rs. 25,00,000/- (Twenty Five Lakh Rupees Only)**
- **(In USD) 26, 500 $ (Twenty Six Thousands Five Hundreds USD Only)**
